

The pre-compression trigger sprayer offers a better durability. With its all-plastic construction and pre-compression feature when spraying, it is perfect to spray a wide range of chemicals. In addition, its low resin content minimizes the impact on the environment.

**General Information**

- Ordering numbers : SP05 PC BH255NNAT
- Spraying capacity : 1.25 ml
- Weight : 22.00 gr
- Color :
- Tube length : 255 mm

**Neck : 28/410**

**Photo**

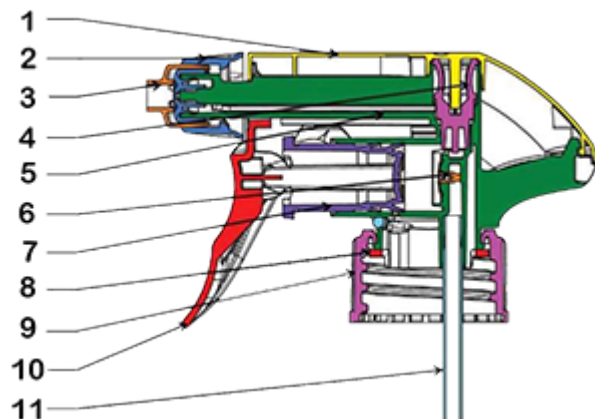

**Standard packaging :**

- 370 pcs per box
- Dimensions : 60 x 40 x 36 cm
- Gross weight : 9.14 Kg

**Exploded View**
